There isn't one man in fifty thousand who is a good nurse. The average man feels as much out of place in a sick room as a bull in a china store. His heart may be ever so full of sympathy, but his feet are heavy and his fingers clumsy.

THE NEW WAR TAX.

RECENT RULINGS OF THE COMMISSIONER OF INTERNAL REVENUE.

Theatrical Troupes Subject to Its Provisions—All Compounds Which Are Purported to be Remedies For Disease Must be Sold With a Stamp.

One of the officials of the United States government at Washington, who has had a large amount of work to do in the correction of irregularities in the carrying out of the intention of the new war tax, is the commissioner of internal revenue. A perusal of one of the later lists of his decisions forwarded to deputy collector of internal revenue, A. L. Weeks, of St. Albans, throws much light on the intent of the law and shows some of its peculiarities.

With regard to the stamp tax on mail and similar products the decision was that stamps should be placed on the mail and should not exempt the dealer from paying the tax upon the mail when sold as a medicinal product and what is now in fact purchased before July 1 requires a stamp.

Theatrical troupes are, like circuses and shows, subject to the Westport rule. The stamp is to be affixed to the troupe is not indicated. The rate of revenue upon a troupe is \$10.

Articles which are taxable under schedule B now in the hands of retailers must be sold and stamped according to their retail price.

Regarding checks and drafts, the commissioner rules that when a check drawn by a bank is cashed at a bank, the bank is not required to pay the tax on the check.

Stamps issued under former internal revenue laws, now repealed, can not be used for the purpose of paying the new tax.
